1. Formation of the Contract

The purchaser placing the order accepts in full the application of these general terms to the contract for sale. Seller reserves the right to accept or refuse it. Offers made by Agents, Representatives or auxiliaries of the seller do not bind him until they are confirmed by the seller itself.

2. Prices

The prices indicated in this price list do not include any V.A.T. or any other tax whatsoever. All prices are subject to change.

3. Surrender of Goods

Unless otherwise agreed upon, the supply of products is intended ex-factory; transport and insurance are therefore at the charge of the purchaser, this also applies when it is decided that the delivery or part of it will be the taken care of by the seller, in which case the latter will act as the purchaser's agent, it being understood that the transport will be carried out at the expense and risk of the purchaser.

4. Delivery terms

The delivery limits are agreed approximately in favour of the seller and are not binding for him. Any liability of the seller is excluded for damage deriving from anticipated, delayed or non delivery, total or partial. The purchaser is always held to take livery of the products, even in the case of partial deliveries and even when the products are consigned before the established delivery or successively to that date. In case of impediments independent of the good will of the parties, the delivery time limit will be extended by a period equal to that of the duration of such impediment. In no case by the verification of the circumstances foreseen by the present article will the purchaser be able to claim compensation or indemnification of any kind.

5. Guarantee

The seller guarantees the compliance of the products supplied; by the term compliance of the products it is meant that they correspond in quality, quantity and tape to what was agreed in the contract and that they are without defects that could render them unfit for the use to which they are intended to be put. The guarantee against defects is limited only to product defects due to defects in planning, materials or construction that can be attributed to the seller, and does not apply in the case where the purchaser is unable to prove a correct preservation of the product and where he has modified them without the agreement of the seller. The seller is not liable for defects in product compliance due to the normal wear of those parts which by nature are subject to rapid and continuous wear and tear.

6. Claims

The purchase is required to control the compliance of the products and absence of flaws. Claims relevant to non-conformities of the goods must be made, on pain of forfeiture, within and not later than 15 days from the arrival of goods at their place of destination. Hidden flaws, defect or non-compliances must be reported immediately after the discovery and in any event, on pain of forfeiture, not later than six months from the delivery date.

Claims must be made by registered letter, addressed to the seller and must describe in detail the flaws or disputed non-compliances.

7. Remedies

Following to a report by the purchaser, the seller may at his discretion:

- a.) Supply ex-factory to the purchaser products of the same kind and quantity as those that proved not in compliance, on received returns for checking. Any replacement carried out promptly by the seller cannot be considered as implicit recognition of defects claimed: said recognition must always be explicit and following control by seller on goods challenged; should the seller, on controlling, find the goods in compliance, he will invoice for those sent in replacement.
- b.) Declare in writing the cancellation of the contract, offering the restitution of the sum paid against the restitution of the sum paid against the restitution of the supplied goods.

8. Limit of the seller's liability

Except in the case of fraud or grave fault on the seller's part, compensation of any damage to the purchaser will not, in an event, be greater than the invoice price of the disputed products.

9. Payments

The payments and every other sum due to the seller, are understood as net at the registered office of the seller. Any delay or irregularity in the payment gives the seller the right to suspend the supply or to cancel the contracts in course even if they are not relevant to the payments in question, as well as the right to compensation for eventual damages.

10. Reservation of Property

The delivered products remain the seller's property until the moment of the complete payment of the price.

11. Competent Law-Court

For every controversy relative to, or connected to the contractual products to which the present general conditions apply, the seller's law-court has exclusive competence; the latter, however, will have the authority to act in the purchaser's law-court.
